

**FOR IMMEDIATE RELEASE**  
**September 22, 2015****TechSource Awarded Follow-on Technical Services Contract to Provide Enterprise Information and Architecture Services to the Navajo Nation's Division of Public Safety (NDPS)**

*Los Alamos, NM.* TechSource Inc. is pleased to announce it was awarded a technical services contract to support the Navajo Nation's Division of Public Safety's (NDPS) efforts to move its full life cycle Enterprise Information Architecture Plan into the implementation phase. TechSource, under their previous contract, lead a fully integrated team in the development of a comprehensive and responsive Enterprise Architecture Program Plan (EAPP).

The implementation of the EAPP will rapidly and cost-effectively transform NDPS' infrastructure and optimize their ability to effectively address current and emerging public safety needs within the Nation. Throughout the implementation phase the TechSource Team will provide comprehensive domain knowledge and expertise supporting: Configuration and Deployment of the Navajo 9-1-1 Systems & Services, Information Management Section Process Improvement, Records Management Systems Upgrade, Police Document Development and Editing, NDPS Dispatch Optimization, Rescue Airboat Certification and Team Training, and System-Wide Integration.

Project lead and TechSource Chief of Staff, Robert Hollen stated, "Our Team's technical expertise, combined with our awareness and embrace of the Navajo Nation's unique cultural and geographic challenges sets the stage for successful implementation. We are confident the strong working relationship we have been privileged to develop with the Navajo Nation and their Leadership's commitment will result in increased capabilities to protect and serve the people of the Navajo Nation. This award solidifies TechSource's on-going commitment to engage and assist Native American Nations in the transformation of their public safety infrastructures."
