TechSource MOBIS Contract Rated Exceptional by GSA

Los Alamos, NM. We are pleased to announce the General Services Administration (GSA) ranks TechSource's service, delivery and procurement practices for its MOBIS (Mission Oriented Business Integrated Services) Schedule "Exceptional."

Earlier this year, TechSource also received an "Exceptional" rating for services provided under our Professional Engineering Services (PES) Schedule. GSA's rating of "Exceptional" reaffirms what our clients already know – TechSource is a top service provider and an unparalleled trusted partner.

TechSource CEO V. Brian D'Andrea shared his appreciation of the ranking, "I am pleased that GSA once again recognized TechSource's commitment to excellence by designating our service level as exceptional. Our commitment to provide our customers outstanding service, support, and advice is what makes our company a leader in the field and the trusted partner our clients have come to know depend upon. The rating of exceptional truly reflects the quality of our staff, our commitment to excellence, and the outstanding expertise offered by TechSource today."

For over 15 years TechSource has delivered exceptional management and technical solutions for some of the most complex challenges facing our nation. TechSource provides expert technical and management services to organizations responsible for developing, implementing, operating and managing high-technology programs and projects. Our clients and GSA recognize TechSource as experts of the highest caliber in accelerator physics, the nuclear sciences, program and project management, system engineering and integration, enterprise architecture, and throughout all the engineering disciplines.

In order to receive the highest rating of "Excellent" from GSA on an Administrative Report Card a contractor must adhere to all administrative and contractual requirements outlined in each contract, provide the right product and service, deliver on time, and the service must be procured at or below contract price. GSA's definition of success also includes full compliance with all contract terms and conditions including record accuracy, lowest pricing options, and timely delivery.

For additional information about the award or interest in using the PES schedule please contact Brian D'Andrea at 505.988.1726 or at bdandrea@techsource-inc.com.
