For Immediate Release 05/10/13

TechSource Awarded Technical and Analytical Support Services for the Department of Energy National Nuclear Security Administration's Office of Defense Nuclear Nonproliferation Research and Development.

TechSource, as Team Lead of the Enterprise-Wide Technical and Engineering Support Alliance (E-TESA), is pleased to announce that it has been awarded a Technical Support Services Contract for the Department of Energy National Nuclear Security Administration's (NNSA) Office of Defense Nuclear Nonproliferation Research and Development (DNN R&D).

The DNN R&D drives the innovation of unilateral and multi-lateral technical capabilities to detect, identify, and characterize foreign nuclear weapons programs, illicit diversion of special nuclear materials, and nuclear detonations.

DNN R&D programs provide the technical base that supports the United States nuclear nonproliferation, counter-proliferation, counterterrorism missions and responsibilities for international ports and border interdiction, special nuclear material search and identification, and incident response and recovery. In the nuclear detonation detection area, DNN R&D provides operational hardware and software for national security systems.

Under this Performance of Work Statement the E-TESA Team will provide various technical programmatic support services for security, protection, and control of classified material including: certification as an alternate derivative classifier; review of technical and programmatic documents for proper classification markings; budget execution, planning, and shaping of DNN R&D business practices to meet ISO 9001 compliance; development of strategic communications documents and electronic media; and will provide assistance in program reviews.

This is the fifth award for Team E-TESA, led by TechSource, under this NNSA BPA. The award is valued at \$1,928,886.52.

For more information about the E-TESA Team and/or this specific technical services award please contact Jim Rhone at 301-515-5819 or jrhone@techsource-inc.com or Don Trost at 301-515-1344 or dtrost@techsource-inc.com.
