For Immediate Release 05/13/13

TechSource Awarded Technical Support Services Contract for the Department of Energy's Office of Emergency Operations.

TechSource as Team Lead of the Enterprise-Wide Technical and Engineering Support Alliance (E-TESA) is pleased to announce it has been awarded a Technical Support Services Contract for the Department of Energy (DOE) National Nuclear Security Administration's (NNSA) Office of Emergency Management (NA-41).

One of NA-41's major tasks is the management of the Comprehensive Emergency Management System (CEMS). CEMS provides the overall framework for responding to all emergency events involving or affecting DOE.

The fundamental concept of CEMS is that site/facility emergency management programs are the last line of defense for the protection of people, the environment, and national security. Emergency management programs are designed to protect people and consider the protective action criteria for actual or potential releases of hazardous materials. Emergency protective action criteria for chemicals are limited to: Acute Exposure Guideline Levels developed by the Environmental Protection Agency, Emergency Response Guideline Levels developed by the American Industrial Hygiene Association, and, Temporary Emergency Exposure Limits (TEELs) calculated using a methodology developed by the DOE.

Under this Performance of Work Statement the E-TESA Team will provide technical support services in the maintenance and management of CEMS.

This is the fourth award for Team E-TESA, led by TechSource, under this NNSA BPA. The award is valued at \$2,023,154.03.

For more information about the E-TESA Team and/or this specific technical services award please contact Jim Rhone at 301-515-5819 or jrhone@techsource-inc.com or Don Trost at 301-515-1344 or dtrost@techsource-inc.com.
