TechSource to Provide Subject Matter and Technical Expertise through the Recently Awarded Los Alamos National Laboratory Management and Operating Contract

Los Alamos, NM. As a member of the TRIAD Team, TechSource is pleased to announce that TRIAD National Security, LLC (TRIAD) has been awarded the Los Alamos National Laboratory Management and Operating Contract (LANL M&O) by the Department of Energy's National Nuclear Security Administration (DOE/NNSA). The contract includes a five-year base with five one-year options, for a total of 10 years if all options are exercised. The estimated value of the contract is \$2.5 billion annually.

TRIAD is a nonprofit, public service-focused organization specifically created to conduct the LANL M&O work over the next 10 years. The highly experienced and dedicated TRIAD Team is comprised of thought leaders and innovators in their respective fields including: Battelle Memorial Institute, Texas A&M University, University of California, Fluor Federal Services, Huntington Ingalls Industries/Stoller Newport News, **TechSource**, Longenecker & Associates, and Merrick.

TechSource will provide subject matter expertise and technical support, as needed, in the performance of pit manufacturing, plutonium operations, and other mission areas.

President and CEO V. Brian D'Andrea, said, "We are elated to be part of the TRIAD Team and to support LANL's national security responsibilities. TechSource has been supporting LANL for over 20 years and fully understands the importance and complexity of the LANL mission. TechSource has built an unmatched cohort of senior experts, most with 35 or more years of expertise in domains directly related to LANL's mission areas of nuclear weapons, global security, science, and key operations areas. We look forward to the expanded role and to contributing to TRIAD's and LANL's success."

About TechSource

TechSource is a leading high-technology science and engineering small business offering recognized expertise in accelerator physics, nuclear sciences, engineering, systems engineering integration, and program and project management. TechSource's talented and innovative cohort is comprised of experts, most with 35 years or more of hands-on experience. TechSource offers policy to test bench technical and management services in coordination with point of interest expertise to organizations responsible for developing, implementing, operating, and managing high-technology programs nationwide. For over 20 years TechSource has successfully supported a diverse and expanding client base, including U.S. federal agencies, the national laboratories, the Navajo Nation, and commercial entities focused on solving some of the most complex issues facing the U.S. today. **TechSource** is recognized as an independent, qualified expert whose advice and products uniquely and effectively bridge technical and programmatic requirements.
