FOR IMMEDIATE RELEASE

August 10, 2021

James Rhone Appointed Senior Vice President and Secretary to the Board of Directors

Los Alamos, NM. TechSource, Inc. (Techsource-inc.com) is pleased to announce the appointment of James Rhone as Senior Vice President and Secretary to the Board of Directors.

In addition to his new roles, Rhone will continue serving as Managing Director of TechSource's National Capital Region Operations (NCRO), providing oversight for ongoing scientific, engineering, and programmatic efforts. Rhone is responsible for numerous clients, including Argonne National Laboratory, Oak Ridge National Laboratory, and Department of Energy (DOE) National Nuclear Security Administration (NNSA). He also leads the Enterprise-Wide Technical & Engineering Support Alliance (E-TESA-2) team which provides DOE NNSA, under the TEPS-2 Blanket Purchase Agreement, with a total solution to satisfy strategic sourcing objectives.

Rhone has over 45 years of technical and managerial experience in the DOE NNSA enterprise and the commercial nuclear power industry. He specializes in project and contract management, emergency management, nuclear chemistry, training, and environmental radiological surveillance. Rhone joined the TechSource team in 2007 as Deputy Director of NCRO. He was subsequently appointed to the role of Vice President in 2013 and Senior Vice President in 2021.

Prior to joining TechSource, Rhone was a Vice President at Parallax Corporation where he oversaw the company's technical presence at DOE/NNSA Headquarters, NASA Goddard Space Flight Center, the Food and Drug Administration's Center for Devices and Radiological Health, and U.S. Customs and Border Protection's Office of Information and Technology. Before his position at Parallax, Rhone was an Assistant Vice President at SAIC.

Mr. Rhone has published numerous scientific studies and technical papers concerning aquatic biology, paleontology, organic chemistry, and environmental radiological surveillance.

About TechSource

Founded in 1997, TechSource, Inc. is a science and engineering consultancy comprised of over 500 senior-level engineers, scientists, and leaders from the national laboratories, Federal technology programs, and the nuclear industry. TechSource is recognized as an independent, qualified expert whose advice and products uniquely and effectively bridge technical and programmatic requirements.
