

## PRESS RELEASE

**TECHSOURCE®**

**FOR IMMEDIATE RELEASE**

February 1, 2023

### **TechSource Welcomes Philip T. Calbos to its Board of Directors**

**Los Alamos, NM.** *Los Alamos, NM.* TechSource, Inc. is pleased to welcome Philip Calbos as a Board Member and Nuclear Security Enterprise (NSE) Subject Matter Expert. Calbos' comprehensive understanding of the NSE, exceptional performance, and high ethical standards align directly with TechSource's mission and culture.

In this new role Calbos will augment TechSource's robust NSE expertise by providing seasoned advisory, analysis, and planning assistance to TechSource, our clients, and the organizations that contribute to the important national initiatives, programs, and projects served by the NSE. Calbos' leadership, program currency, and strategic planning expertise will play a significant role in TechSource's future while affording him the opportunity to continue to serve the nation.

"We are pleased to incorporate Phil into our exceptional team of nationally recognized experts," said TechSource President and COO Jeff Giangliuli. "His commitment to cultivate corporate excellence is strategically balanced amongst our managerial experts, and I am confident that his focus, leadership, and relentless drive to seek implementable solutions will strengthen our corporate capabilities."

Prior to joining TechSource, Calbos served as the Principal Assistant Deputy Administrator and Acting Deputy Administrator for Defense Programs in the Department of Energy's National Nuclear Security Administration. In 2018, Calbos was among the 1% of senior career employees to receive the Distinguished Presidential Rank Award in recognition of his strong leadership, sustained extraordinary accomplishments, and commitment to excellence. Calbos also served in the Office of Management and Budget as an analyst and Branch Chief for national security programs, and he served in the Army as an infantry officer.

#### **About TechSource**

Founded in 1997, TechSource, Inc. is a science and engineering consultancy comprised of over 500 senior-level engineers, scientists, and leaders from the national laboratories, Federal technology programs, and the nuclear industry.
