TechSource, Inc. Mourns the Death of Board Member James Stout

It's with great sadness that we announce the passing of our friend and fellow Board Member, Jim Stout. "It was a privilege to serve alongside Jim for 19 years," said Brian D'Andrea Chairman and CEO of TechSource. "Jim was a consummate gentleman who approached every day with an open mind, a terrific sense of humor, and a deep humility. I will miss his wisdom and simply knowing he was there when needed. Jim was truly one of a kind, and we will dearly miss him." From the inception of the company, Jim provided business and legal advice to the founders. He joined TechSource's Board of Directors in 2004. Jim passed away on February 10, 2023.

Prior to joining TechSource, Jim served in the Department of Energy for over 30 years, concluding with his appointment as Chief Counsel, Albuquerque Operations Office. Jim held a variety of roles related to the operation of the Nuclear Weapons Complex including that of Lead Negotiator for the contracts for the operation of Lawrence Berkeley, Lawrence Livermore, and Los Alamos National Laboratories, and Senior Advisor on contracts relating to the operation of Sandia National Laboratories.

In addition to these roles, Jim also served as an advisor to the Strategic Advisory Committee of the Commander, U.S. Strategic Command. He was a former member of the LANL Director's Senior Advisory Group and has held numerous blue-ribbon panels and congressional committee appointments related to Nuclear Security Enterprise realignment, safeguards and security, and certification. Jim grew up in Iowa and attended the University of Iowa where he received a B.S. in Business Administration. He was awarded a Doctor of Jurisprudence degree from Drake University. He also served as a Judge Advocate in the United States Air Force.

"Jim embodied the optimism of TechSource," said Jeff Giangliuli, President and COO TechSource. "He took great pride in his role on the Board, always striving to do the right thing to ensure TechSource remained an industry leader. He will be greatly missed by the TechSource family, the nuclear security industry, and his community."
