TechSource Welcomes Brian V. Hooper as a Senior Technical Advisor

Los Alamos, NM. TechSource, Inc. is pleased to welcome Brian V. Hooper as a Senior Technical Advisor and Nuclear Security Subject Matter Expert. Hooper's comprehensive understanding of the Nuclear Security Enterprise (NSE), exceptional performance, and high ethical standards align directly with TechSource's mission and culture.

In this new role, Hooper will augment TechSource's robust NSE expertise by providing subject matter expertise in the areas of nuclear security and systems engineering to TechSource, our clients, and the organizations that contribute to the important national initiatives, programs, and projects served by the NSE. Hooper's organizational leadership, deep knowledge of National Nuclear Security Administration (NNSA) nuclear programs, and strategic planning expertise will play a significant role in TechSource's future while affording him the opportunity to continue to serve the nation.

"We are pleased to incorporate Brian Hooper into our outstanding NNSA team," said TechSource Senior Vice President James Rhone. "Brian's deep and exceptional nuclear security expertise, systems engineering pedigree, and strategic vision greatly augments our team's capacity to provide the value-added expertise, meaningful support, and innovative solutions our client and partners depend on to drive mission delivery."

Prior to joining TechSource, Hooper served as the Deputy Assistant Deputy Administrator for the NNSA Office of Systems Engineering and Integration. Throughout his tenure with NNSA Office of Defense Programs, Hooper served in several leadership positions, including the Executive Director for Defense Programs; Director for the Office of Program Evaluation and Business Systems; Federal Program Manager for the Reliable Replacement Warhead Program; and Deputy Program Manager for the W76 Life Extension Program. Hooper also served in the U.S. Navy as a Lieutenant on the USS NIMITZ (CVN-68).

About TechSource

Founded in 1997, TechSource, Inc. is a science and engineering consultancy comprised of over 500 senior-level engineers, scientists, and leaders from the national laboratories, Federal technology programs, and the nuclear industry.
