TechSource's Exceptional Growth Earns National Acclaim

TechSource, Inc. is honored to once again earn a place on the prestigious Inc. 5000 list of Fastest-Growing Companies in the U.S. This recognition, compiled by Inc. Magazine, celebrates the nation's most dynamic and innovative privately held companies, spotlighting those that have achieved exceptional growth over a three-year period.

"Being honored once again with an Inc. 5000 award is a powerful testament to our relentless commitment to delivering mission-critical value and solving our customers' toughest challenges," says Jeff Giangliuli, TechSource President and Chief Operating Officer. "This recognition belongs to our exceptional team, whose unmatched expertise, innovation, and dedication across the National Security Enterprise have solidified our reputation as the trusted partner for organizations tackling their most ambitious goals. As an employee-owned company, this achievement is even more meaningful, reflecting the shared passion and ownership that drive our extraordinary results. Looking ahead, our unwavering focus on advancing our customers' missions will continue to fuel our growth and success."

TechSource's ongoing recognition on this esteemed list highlights the impressive and steady growth we have achieved in the national nuclear security mission space while also affirming our successful expansion into new markets.

"We are incredibly honored to receive this recognition, which is a testament to the dedication, expertise, and passion of our exceptional team," said John Meyers, Senior Vice President and Chief Growth Officer. "With over 25 years of industry-leading experience, our focus remains on empowering our clients to achieve their most critical objectives with confidence and integrity. To stand among such innovative and values-driven companies is both humbling and inspiring."

About TechSource

TechSource, Inc. is a premier provider of science, engineering, and technology expertise, services, and solutions for over 25 years. We leverage the decades of experience and expertise of each of our 500+ senior-level engineers, scientists, and leaders from the national laboratories, federal technology programs, and the nuclear industry to drive innovative solutions focused on mission delivery in national security domains.
