

# E-TESA-3

## THE ENTERPRISE SOLUTION

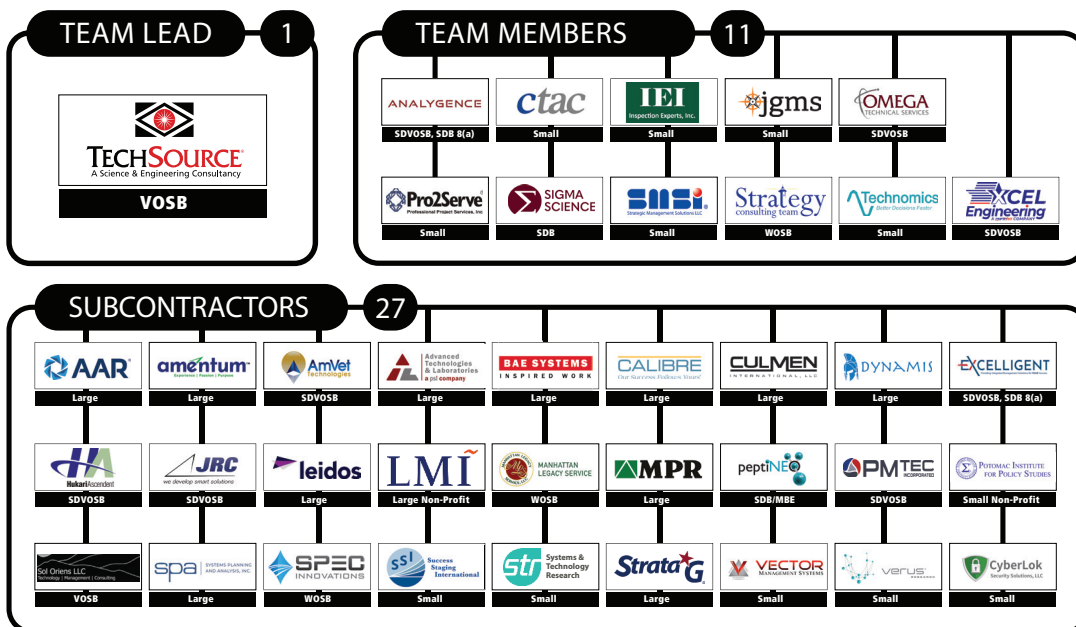

Enterprise-Wide Technical & Engineering Support Alliance

## DOE/NNSA Enterprise-Wide Technical, Engineering, and Programmatic Service (TEPS-3) BPA

E-TESA-3, a Contractor Team Arrangement (CTA) with 11 CTA members and 27 subcontractors, recognizes mission areas are not static and anticipating evolving mission and program requirements are key to driving mission achievement. Each E-TESA-3 CTA member provides DOE/NNSA maximum confidence in our ability to:

- Achieve/exceed small business utilization goals by delivering a qualified balance of small and large businesses
  - Provide best-in-class expertise and ability to perform/exceed expectations
  - Provide access to thousands of professionals who are knowledgeable, have hands on experience, and possess a broad and deep understanding in every required discipline
  - Reduce performance risk and ensure continuity of service mitigated as early as possible.
- NSE Program Management
  - Systems Engineering
  - Security Management
  - Research and Development
  - Environment, Safety, and Health
  - Emergency Operations
  - Nuclear Engineering SME and Analysis
  - Knowledge Transfer and Retention
  - Nuclear Nonproliferation
  - Alternatives Analysis/IPR

### E-TESA Organizational Chart

E-TESA-3, unified under the leadership of TechSource, Inc. a Veteran Owned Small Business, provides NNSA and DOE with a total solution to satisfy strategic sourcing objective under the DOE/NNSA BPA.
